Rui Ribeiro

Junior FullStack Developer

Aspiring software developer in the midst of an career transition journey. Having recently completed an intensive full stack programming bootcamp, I am motivated to kickstart my tech career. My prior background experience in hospitality has equipped me with valuable soft-skills including: problem-solving, fast adaptability, team-work mindset, and practise in various languages, which I am eager to leverage in the world of software development. I describe myself as a quick learner, dedicated to continuous improvement, and committed to making a positive impact and contributing my utmost to my future team and projects.
